

HAT SIZING

Got a Head... then get a Amazonas Real Brazilian Tarp Hat and a fantastic hat accessory also If you are not too sure of your hat/head size? Find a flexible tape measure (not the metal kind!) and wrap it around your forehead, just above your eyebrows, then read the number where the tape overlaps itself. Doing this in front of a mirror is easiest.

If you are in between sizes please choose the next size up and **put your measured head size in the order notes** this way we will get a perfect fitting hat sent out to you, we love detail and we love hats..... and we also love you !

We will guarantee getting you a hat that fits your head. If your Amazonas tarp hat arrives too big for you, or a little too small, just pop it back us and we'll try again; you'll pay nothing extra but the postage.

If it is just **slightly** to big you could try our removable **Hat Sizers** to make it a bit snugger ?

Hat Sizing

Hat Size	Inches	CM
X Small	21 - 21 1/4"	53cm - 54cm
